**Not Supported:**VC-1, WMV

**What's Included:**

- Micca MPLAY-HD Net
- IR Remote
- AV cable
- 100-240V AC adapter

Just connect it to your TV or HDTV as you would a DVD player and enjoy your videos, music, and photos from a USB drive, flash memory card, or through the network from UPnP servers, Internet radio stations, Picasa, and Flickr.

The MPLAY-HD Net is small, matte black, and completely noiseless. It starts up in less than 2 seconds and has an intuitive and responsive interface, making it effortless to enjoy all your media content without the need for a computer. The full size IR remote provides easy access to all playback controls.

## Performance

The MPLAY-HD Net is a true next generation digital video device with broad video/audio codec and file format support at up to 1080p and 40-80mbps. The following is a brief summary, please see the Specifications tab for full details:

- Video Files: MKV, AVI, MP4, MOV, XVID, TS, M2TS, RM, RMVB, DAT, MPG, MPEG, VOB
- Video Codecs: H.264/AVC BP/MP/HiP L4.1, MPEG1/2/4, DivX/Xvid, Real Video
- Audio Files: MP3, WMA, WAV, RM, OGG, AAC, M4A, FLAC, APE
- Audio Codecs: MP3, WMA, WAV, OGG, AAC, FLAC, APE, PCM, DTS, AC3, RA, AMR
- Photo Files: JPG, BMP, PNG, GIF, TIFF
- Subtitle: SUB, ASS, SRT, SSA, SMI, IDX+SUB
- Other: DVD VIDEO\_TS with menu

## Network Capability

The MPLAY-HD Net has a 10/100mbps Ethernet Lan jack for connecting to the network. It can access videos up to 720p resolution, photos, and music from UPnP sources on your local network such as a Windows XP/Vista/7 computer, or dedicated UPnP servers such as TwonkyMedia and MediaTomb (PlayOn and TVersity are not supported at this time). Hundreds of Internet radio stations are also available, conveniently organized by genre and searchable by keyword. Photo albums on Picasa and Flickr can also be accessed for viewing.

The MPLAY-HD Net can be used with all TVs, HDTVs as well as home theater systems with its extensive connectivity:

- Video: HDMI 1.3, CVBS/Composite
- Resolution: NTSC, PAL, 480i/p, 576i/p, 720p, 1080i/p
- Audio: SPDIF coaxial and optical, analog stereo
- Storage Interface: Dual USB 2.0 Host ports, SD/SDHC/MS flash memory card reader
- File System: FAT32, NTFS, HFS+ (No Journaling)
